

TowerJazz Further Demonstrates Commitment to China Market; Announces Participation at IC China 2012 and IC CAD 2012

October 17, 2012 at 7:31 AM EDT

Keynote presentations and exhibits focus on SiGe/FEM development, CMOS image sensors, 700V LED lighting and scalable LDMOS for DC-DC converters, LED backlighting

NISHIWAKI, Japan, Oct. 17, 2012 /PRNewswire/ -- [TowerJazz](#), the global specialty foundry leader, today announced keynote presentations and exhibits at IC China 2012 in Shanghai on October 23-25, 2012 (booth #B11), and IC CAD 2012 in Chongqing, China on December 6-7, 2012. TowerJazz's presence at these influential semiconductor industry expositions in China demonstrates its strong commitment to continue addressing the demands of business in this region. According to iSuppli, today 42 percent of all ICs are consumed in China and it is projected to grow to nearly 50 percent by 2015.

TowerJazz's presentations will focus on the availability of its advanced specialty technologies such as front-end module (FEM) development, its highly integrated 700V technology to meet the green standards for BLDC motor drivers and industrial LED lighting, and its 0.18um BCD with scalable LDMOS for Energy Harvesting, DC-DC converters and LED backlighting, as well as high dynamic range (HDR) pixel development for security and automotive solutions. TowerJazz will also provide highlights of its extensive efforts in offering the best design enablement tools in the industry.

"TowerJazz has continued to grow its technical support capabilities in China having added key design and process support experts within this past year and hence, further demonstrating our solid commitment to the China IC market," said Todd Mahlen, Vice President of APAC Sales. "We are excited to participate at IC China and IC CAD this year and showcase our dedication to providing industry leading design tools that enable China's very skilled design engineering community to excel in meeting the challenging demands for more energy efficient solutions."

About TowerJazz

Tower Semiconductor Ltd. (NASDAQ: TSEM, TASE: TSEM), its fully owned U.S. subsidiary Jazz Semiconductor Ltd., and its fully owned Japanese subsidiary TowerJazz Japan, Ltd., operate collectively under the brand name TowerJazz, the global specialty foundry leader. TowerJazz manufactures integrated circuits with geometries ranging from 1.0 to 0.13-micron, offering a broad range of customizable process technologies including: SiGe, BiCMOS, Mixed-Signal and RFCMOS, CMOS Image Sensor, Power Management (BCD), and Non-Volatile Memory (NVM) as well as CMOS and MEMS capabilities. TowerJazz also offers a world-class design enablement platform that complements its sophisticated technology and enables a quick and accurate design cycle. In addition, TowerJazz provides (TOPS) Technology Optimization Process Services to IDMs as well as fabless companies that need to expand capacity, or progress from an R&D line to a production line. To provide multi-fab sourcing, TowerJazz maintains two manufacturing facilities in Israel, one in the U.S., and one in Japan with additional capacity available in China through manufacturing partnerships.
