

## **TowerJazz Recognized by International Rectifier as 2012 Foundry Supplier of the Year**

May 23, 2013 at 4:00 AM EDT

MIGDAL HAEMEK, Israel & EL SEGUNDO, Calif.--(BUSINESS WIRE)--May. 23, 2013-- TowerJazz, the global specialty foundry leader, today announced it has received a Foundry Supplier of the Year 2012 Award from International Rectifier, a world leader in power management technology. International Rectifier's annual Supplier Summit recognizes the valuable role its worldwide supplier base plays in the overall performance and success of the company. The event was attended by approximately 140 companies from around the world. IR's Supplier of the Year 2012 for Foundry Manufacturing was awarded to TowerJazz based on criteria including cost/spend goals, manufacturing flexibility and responsiveness.

"IR is a leading provider of power management technology and a valued customer of TowerJazz. We are pleased IR is using our specialty technology transfer services and look forward to continuing to expand our relationship," said Zmira Shternfeld-Lavie, VP of Process Engineering R&D and GM of Transfer, Optimization and Development Process Services (TOPS™) Business Unit. "We are honored to receive this award which further validates our commitment to actively respond to our customers' needs while retaining flexibility in manufacturing and increasing our capacity."

"We value the successful business relationships we have built with each of our suppliers and we are pleased to award TowerJazz with IR's Supplier of the Year for Foundry Manufacturing 2012," said K.S. Song, IR's Vice President Operational Effectiveness Group.

### **About International Rectifier**

International Rectifier (NYSE:IRF) is a world leader in power management technology. IR's analog and mixed signal ICs, advanced circuit devices, integrated power systems and components enable high performance computing and reduce energy waste from motors, the world's single largest consumer of electricity. Leading manufacturers of computers, energy efficient appliances, lighting, automobiles, satellites, aircraft and defense systems rely on IR's power management benchmarks to power their next generation products. For more information, go to [www.irf.com](http://www.irf.com).
