

TowerJazz and Semtech Corporation Announce Significant Production Ramp of Proprietary Technology

April 14, 2015 at 4:00 AM EDT

MIGDAL HAEMEK, Israel and CAMARILLO, Calif., April 14, 2015 (GLOBE NEWSWIRE) -- [TowerJazz](#) (Nasdaq:TSEM) (TASE:TSEM), the global specialty foundry leader, and [Semtech Corporation](#) (Nasdaq:SMTC) announced today the successful production ramp of various products in TowerJazz's fab. TowerJazz and Semtech share a strong history of partnership and process transfer activities across multiple business units.

"Our proprietary processes presented a significant integration challenge to our foundry partners. TowerJazz was able to provide the combination of technical capability and a dedicated, experienced engineering staff which allowed the rapid qualification and ramp in several of our new product families," said Asaf Silberstein, Senior Vice President, Worldwide Operations Semtech Corporation.

"I am pleased to announce the successful completion of the technology transfer of Semtech's processes into TowerJazz's Fab 2. This achievement was a result of close collaboration between the Semtech and TowerJazz process engineering teams. Production ramp of several products has already started. We look forward to a continuing partnership to drive growth for both companies over the coming years," said Zmira Shternfeld-Lavie, VP of Process Engineering R&D and GM of Transfer, Optimization and Development Process Services (TOPS™) at TowerJazz.

The mission of TowerJazz's TOPS business unit is to work with customers that possess their own process IP and to transfer their flows into TowerJazz's worldwide manufacturing facilities, providing them with a best in class technical engineering team, needed capacity and manufacturing flexibility. TowerJazz's TOPS group also serves as a development center and facilitates moving from R&D to mass production.

About Semtech

[Semtech Corporation](#) is a leading supplier of analog and mixed-signal semiconductors for high-end consumer, computing, communications and industrial equipment. Products are designed to benefit the engineering community as well as the global community. The company is dedicated to reducing the impact it, and its products, have on the environment.
